

DANIEL STODDARD.

[*To accompany bill H. R. No. 288.*]

JANUARY 19, 1832.

Mr. BURGESS, from the Committee on Invalid Pensions, made the following

REPORT:

The Committee on Invalid Pensions, to which was referred the petition of Daniel Stoddard of Connecticut, praying for a pension, report:

That the petitioner made an application in February, A. D. 1821, to be placed on the pension roll, and furnished satisfactory evidence from Colonel Huntingdon and Colonel S. B. Webbs, of the faithful service of said Stoddard for the term of three years, and of his having been honorably discharged. There is also satisfactory evidence that while in service, during the winter of 1779-80, he was seriously injured in the right foot and ankle while in the performance of duty. Two respectable surgeons also certify, that the fracture and dislocation received at that time produced an incurable and increasing lameness, which disables said Stoddard, in a great degree, from obtaining a subsistence. The surgeons estimate the disability at three-fourths. The committee think a pension ought to be granted, and bring in a bill for that purpose.
